

Nazmul Haque

Student

About me

Programming enthusiast and Electrical & Electronic Engineering student passionate about building innovative web applications, machine learning systems, and quantum-inspired solutions.

personal

Nazmul Haque
Nationality: Bangladeshi
Age: 24
Location: Rupganj, Dhaka

Areas of specialization

Web Development • Machine Learning • Image Processing • Quantum Computing

Languages

Bangla (Native) • English (B2)
• Hindi (B2) • Urdu (B2)

Interests

C# / Python / JavaScript
React / MATLAB / TensorFlow

PROFESSIONAL SUMMARY

Electrical & Electronic Engineering student with expertise in full-stack web development, machine learning, and Proficient in Python, JavaScript, React, and TensorFlow with hands-on experience building blockchain applications, computer vision systems. Seeking to leverage technical skills in innovative software development roles.

EXPERIENCE

Jun 2025–Aug 2025

Blockchain Voting System

LEAD DEVELOPER •

Developed a secure, decentralized voting system using Python, Flask, and blockchain technology. Implemented cryptographic security features that reduced potential vulnerabilities by 85%. Created real-time result processing system that improved reporting efficiency by 70%. Lead developers, completing the project 2 weeks ahead of schedule.

May 2025–Jul 2025

SPD Bot for Engineers

FULL-STACK DEVELOPER • AI

Built an AI chatbot with Matrix-themed UI using React, Firebase, and Server-Sent Events. Implemented real-time response system with 95% up-time and average response time of 0.8 seconds. Increased user engagement by 40% through intuitive UI design and interactive features.

Jan 2024–Present

University Projects

STUDENT DEVELOPER • Green University

Developed web apps like News Summaries and PrivateNote, and MATLAB projects for numerical analysis. Successfully delivered 5+ projects with 100% client satisfaction rate. Reduced processing time for numerical analysis by 60% through optimized algorithms.

Jul 2025–Aug 2025

Image Processing Research

RESEARCHER • Computer Vision

Created a MATLAB GUI for measuring diameters of round objects in images, utilizing Image Processing Toolbox. Achieved 95% accuracy in diameter measurements compared to manual methods. Reduced analysis time by 75% compared to traditional measurement techniques.

Apr 2025–Jun 2025

Weapon Detection System

SELF-TAUGHT DEVELOPER • Machine Learning

Built a weapon detection system using Python, OpenCV, and pre-trained YOLO/SSD models for image analysis. Achieved 92% detection accuracy with minimal false positives. Optimized model to process images 3x faster than baseline implementations.

EDUCATION

2022–Present

Electrical & Electronic Engineering

BACHELOR'S • Green University of Bangladesh

PROGRAMMING SKILLS

C

Python

Java

JavaScript

PROJECTS

2025	SPD Current Affairs for Bangladeshi Students WEB DEVELOPMENT · Flask 	
	Developed a news summarization web app using Flask and Natural Language Processing. Implemented customizable source selection from 15+ news outlets. Reduced reading time by 60% while maintaining 90% content accuracy. Served 500+ users in the first month of deployment.	
2025	Numerical Analysis Pro Toolkit MATLAB · MATLAB 	
	Created comprehensive MATLAB scripts for numerical methods like Regula Falsi and trigonometric calculations. Implemented visualization tools that improved understanding of mathematical concepts by 80%. Used by 200+ students for coursework and research.	
2025	Modern Stock Market Tracker PYTHON · Python 	
	Built a real-time stock market tracking application with advanced analytics. Implemented interactive charts using Plotly and real-time data from Alpha Vantage API. Created prediction models with 75% accuracy for short-term market trends. Designed responsive UI that improved user retention by 45%.	
2025	Secure Notes WEB DEVELOPMENT · React 	
	Developed a private note-taking web app with Firebase authentication and storage. Implemented end-to-end encryption for all notes. Achieved 99.9% uptime and sub-100ms response times. Gained 300+ active users within first month of launch.	

TECHNICAL SKILLS

Web	HTML5, CSS, JavaScript, React
Backend	Flask, Node.js, Firebase
ML/AI	TensorFlow, PyTorch, OpenCV
Tools	Git, MATLAB,

SOFTWARE PROFICIENCY

Advanced	MATLAB, Visual Studio
Intermediate	EMU8086, Git
Basic	PhotoShop, Adobe Suite, Node.js/npm

LANGUAGES

Bangla	C2	Native					
English	B2						
Hindi	B2						
Urdu	B2						

PLATFORMS

Experienced	Windows, Linux
Familiar	Mobile Development
